

(Minutes of OCh/G Staff Meeting, 10 May 1954)

25X1A9a

25X1A9a

PRESENT: [REDACTED]

1. Plans were reviewed for the briefing of the group of G-2 Mobilization Designation Reserve Officers undergoing active duty training in CIA, scheduled for Thursday, 13 May. It was indicated that the Divisions would prefer to brief the officers on the spot rather than assembling in the office of the Chief, Geographic Research for the briefing. Accordingly the following time schedule was established:

D/GL----- 1 to 1:30 P.M.  
D/GC----- 1:45 to 2:15 P.M.  
D/GG----- 2:15 to 2:45 P.M.  
OCh/G-(including D/GP) - 3 to 4 P.M.

25X1A9a

2. [REDACTED] indicated that no further definite word has been received as to the time scheduling for budget estimates.

3. It was indicated that plans for the annual Geographic Area picnic are progressing satisfactorily and that consideration is being given to the selection of the Fort Hunt Area, south of Alexandria, as a possible site for the picnic this year.

25X1A9a

25X1A9a

4. There was some discussion of the results of the tour of [REDACTED] of the Office of Training within the Geographic Area.

25X1A9a

5. [REDACTED] commented on the problem of overtime work on week-end "flap" jobs that have been recurring with some frequency lately. It was indicated that some resentment or at least some reasonable questioning as to the necessity for last minute notices on such jobs was developing in at least two of the divisions of the Area. It was agreed that this represents a part of the entire problem of priority now confronting the Geographic Research Area.

25X1A9a

6. [REDACTED] indicated that he has been informed that the BIC is scheduled to begin the two-phase sessions in June. This, it will be recalled, refers to the plan to break the BIC into two parts consisting of three weeks and four weeks respectively.

7. There was some considerable discussion of the possibility of defining satisfactorily "clerical" versus "professional" positions within the Geographic Area. Such definitions had been requested by the ORR Career Service Board, primarily for purposes of deciding which individuals should be scheduled for the full BIC course and which should be scheduled.

for the first phase only. It was the consensus of opinion among those present that any attempt to distinguish between "clerical" and "professional" positions is somewhat unrealistic, in view of the fact that the Classification Act of 1949 provided for an abolition of the distinction between these two types of positions, combining them under the "GS" heading. It was further agreed that the work of the Geographic Area in drawing up statements of qualification requirements for all positions within the Area has largely eliminated the necessity for any further definition of differences in positions within the Area.

25X1A9a

8. [REDACTED] spoke on the problem of plotting "scraps" of urban intelligence on town plans as such intelligence comes into the Geographic Area. He mentioned that insofar as he knew there was no systematic effort within CIA at the present time to record on Town Plans bits of locational information that come in in fragmentary form from the Satellite countries and the USSR. He indicated that he hoped to be able to begin such a systematic operation within D/GL. Such an operation will be conducted primarily by [REDACTED]. It was suggested that detailed information be obtained regarding work of this type that might currently be underway by ESID, Air Targets Division, or in the Industrial Register of OCD before proceeding further with definite plans for such an operation in D/GL.

25X1A9a

9. A summary of records on vital storage documents was presented to the group for review and comment. This summary will be reviewed first by D/GC, having already been reviewed in preliminary fashion by [REDACTED] of D/GG with the EX/RR. Comments on the adequacy of the present records and any indication of requirements for future processing of documents for vital storage are to be submitted to the Chief, St/I not later than 1 June 1954.

25X1A9a

25X1A9a

10. [REDACTED] indicated that the Air Force is sending to CIA a commendation for the work of the Geographic Division on the Indo-China Escape and Evasion Geographic recently completed.

25X1A9a

11. [REDACTED] indicated that the FDD list of maps encountered in publications being processed by them has not yet been received by D/GL. He is planning to contact [REDACTED] on this matter to attempt to expedite receipt of the list.

25X1A9a

13. [REDACTED] indicated that he has been conferring with representatives of the DD/P Area in an attempt to establish a procedure with them whereby DD/P Area reports would be issued with references to the map call numbers of map enclosures to those reports.

- 25X1A9a 14. [REDACTED] indicated that he plans to travel to [REDACTED] 25X1A5a1  
25X1A5a1 [REDACTED] in the near future to explore the possibility of arranging  
for cataloging of unclassified maps by the Geography Department of that  
Institution on a contract basis. He indicated that some such procedure  
is necessary to clear up the back log of uncatalogued maps now reposing  
25X1A9a in D/GL. A written memorandum supporting this proposed trip is to be  
prepared by [REDACTED].
15. There was considerable discussion of the possibility of system-  
atically checking the extent and frequency of requests by Soviet nationals  
or Soviet Agencies for detailed map coverage, photo coverage or geographic  
information on the United States. Several obvious instances of this have  
been reported recently. [REDACTED] of D/GG is particularly interested in 25X1A9a  
following this problem.
16. With regard to the anticipated move of D/GL, [REDACTED] reported  
that there still has been no definite decision concerning the suitability 25X1A9a  
or availability of the building at 14th and Independence Avenue.
- 25X1A9a 17. [REDACTED] indicated that he had been informed that more  
money from the DD/P Area would likely be forthcoming for reproduction  
of 51 maps of Bulgaria requested by them.
- 25X1A9a 18. [REDACTED] indicated that D/GL personnel will be checking the  
files of D/GG and D/GC in the near future to check on the current accuracy  
of the charge-out records from the loan desk in D/GL.
- 25X1A9a 19. [REDACTED] reported that the Army has again become active in  
a procurement effort to obtain copies of aerial photography of Burma.
- 25X1A9a 20. [REDACTED] reported that a new British development in radar  
photographic techniques was attracting considerable attention in U. S.  
intelligence circles.
- 25X1A9a 21. It was indicated that [REDACTED] and [REDACTED] of St/I should 25X1A9a  
hold conferences on the question of vital storage documents in the near  
future.
